Holds Statement No: PCFV 779203

As a result of carrying out the verification of product life cycle greenhouse gas emissions, it is the opinion of BSI with reasonable assurance that:

- The product carbon footprint with the functional unit of one pcs Sugarcane Tableware as following table.
- No material misstatements in this product life cycle greenhouse gas emission assertion were revealed.

The product life cycle GHG data quality was verified to be acceptable against the requirements of ISO 14067: 2018 and Taiwan EPA CFP promotion management guidelines (including Annex III-CFP data qualification and verification specification).

This statement shall be valid for a maximum period of two years after the latest issue date on this certificate. Should there be a change in the life cycle of the product whose GHG emissions are being assessed, the validity of this opinion statement will cease.

For and on behalf of BSI:

Managing Director BSI Taiwan, Peter Pu

The product carbon footprint with the functional unit of one pcs Sugarcane Tableware as following table.

The product carbon footprint with the functional unit of one pcs Sugarcane Tableware as following table.

Product	functional Unit	Specification	Emission (g CO ₂ e)
Sugarcane Knife	1 pcs	5.84 g	14.67
Sugarcane Fork	1 pcs	5.80 g	19.59
Sugarcane Spoon	1 pcs	6.34 g	15.77

Additional information

Product related information is as follows:

- System boundary for this product: **Cradle to Grave**
The product system boundary is consistent with its system boundary definition in the PCF report for product carbon footprint, which involves the acquisition of materials, process activity, transportation, distribution, use and the final disposal stages in the product life cycle.
- The data in this product life cycle greenhouse gas inventory report is from 2021-01-01 to 2021-12-31.
- The primary activity data include related facilities from its own processes under the operational control of the organization.
- The secondary data include relative factors from EPA Carbon Footprint Calculation Platform and LCA software Simapro 9.3.0.3 with Ecoinvent data v3.0.
